TRAININGS

Seminar-Workshop On Arduino Proggraming
Gov. Alfonso D. Tan College
Maloro, Tangub City

Seminar-Workshop On Network Topology;Sitting up Wirelessptpt Using Ubiquitte
Gov. Alfonso D. Tan College
Maloro, Tangub City

Seminar-Workshop On Network Topology;Firewall Router Computer Using PF Sense
Gov. Alfonso D. Tan College
Maloro, Tangub City

EXPERIENCE

Banta Baha: Flood Alarm System Using Arduino(Research)
System Programmer, Researcher

About:

The researchers gather data from having a system that could help the authorities as well as the resident to keep them aware before flood comes. We focused on how accurate the system is. By doing many simulations in order to see its accurate incomes of reading the measure of the water and its performance through sending warning message(SMS). The researchers open a new perspective on how should we thrive a new way on keep the residents being aware especially in times of flood calamity.

GADTC OSA My Attendance (On the Job Training)
System Programmer

About:

The intern(s) conducts an interview to fully utilized the innovative way of conducting an Attendance system which is needed for every student as well as the office of OSA, for it to be more comprehensive. The intern(s) develops a website where the students can register their personal details as their personal account and can view the upcoming event so they can tap the ATTENDANCE IN and ATTENDANCE OUT.
